State of the Town:

As the year 2008 comes to a close, we will be facing tougher challenges for 2009. I can report that the City of Green Lake and Town of Brooklyn are hopefully in the last stages with our Boundary Agreement. With the passage of this Agreement, it will bring us a step closer to uniting our growth and productivity efforts.

The Town has finalized its amendments to our Comprehensive Plan and will be holding a Public Hearing on the matter soon. Also, at the urging of the electors at recent town annual meetings, the Town Board will increase from 3 to 5 members as of April 2009.

Over recent years the budget for road expenses has not increased, and with the severe winter last year and the spring flooding in early 2008 the bulk of several years' road budget has been spent on plowing, salt/sanding and spot repairs. Recognizing the need for serious infrastructure maintenance and restoration, a 20-Year Road Rehabilitation Plan encompassing all the roads under jurisdiction of the town was prepared. A "Power-Point" presentation was given at the Town Annual Budget Hearing in November, and with that information the electors present voted unanimously to support the increase in the road budget needed to provide the money to continue required regular road maintenance. It will also afford the increase, which will be needed to carry out the reconstruction and rehabilitation on all the roads in the town over a 20-year cycle. This did increase our road budget and town levy substantially but that will permit us to improve our infrastructure on a continuing basis.

Thank you all for allowing me to serve as your Town Chairperson with pride and respect.
Mike Wuest, Town Chair

Tax and Assessment Notes:

Please be aware, that although the road budget increase raised the town levy and the town mill rate, when it was combined with the mill rates of the state, county, school, tech. school and (for some properties) the sanitary district the overall mill rates for the town tax districts actually decreased, though not in the same proportion as the overall value increased.

As we are all aware, an outside re-assessment of the town was required due to a petition of 14 property owners in 2006. This resulted in an increase in the total town value from \$434.4 million to \$532 million. This is an effect of three factors working together. (1) An increase in the value of the town as determined by the Dept. of Revenue Assessment Office, (2) An increase in our level of assessment from about 90% of the state's former (2007) full value to now about 95% of the state's new (2008) increased value, and (3) An increase in actual values of many classes of property as determined by analysis of sales by Grota Appraisals.

We have been made aware that the classifications of some properties were changed. If you feel there is a problem with your assessment, as always, I am willing to discuss it with you and review your property listing. This can be done at any time. It is not necessary to wait until Open Book to alert me of a potential problem. If done before the roll is complete, any necessary change can be more efficiently processed and the Open Book/ Board of Review process made less pressured. Thank you for your consideration and patience.

Elizabeth A. Rowley, Town Assessor
